

- Submit the **URL** to your **Command Center** research section via Canvas by **Monday, May 11th at 10 am**.

- **AI as a Sketch Tool:** Use AI to generate the "poses and emotions" Magruder recommends sketching ahead of time, then refine them to match your **Character Sheets**.

These questions can be used directly in your **Research Artifacts** section in your **Command Center**. I have also generated a **Character Consistency Rulebook** (Slide Deck) and a **Workflow Infographic** based on these principles, which are now available in your Studio tab.

These claims directly relate to the **"Verification"** requirement of your assignment, which asks you to check a specific method or fact from the source.

to your canvas to identify lopsidedness  
errors in 3/4 views and perspective.
